It is a coincidence worth noticing that Gen. Grant's horse, which was shot under his owner the day before Vicksburg fell, died on the very day the General was buried. He was in the possession of John Baker, of Fayette County, West Virginia, a soldier who fought with Grant at Vicksburg. Although old, the animal was without a blemish, except the scar from the wound he received. On Thursday previous he refused to eat and in spite of medical treatment, died on Saturday following.

Ashland College.

Ashland College has commenced the school year of 1885-86 on August 11, with a full corps of competent teachers adapted to the work, and offers more advantages to students than ever before. The First Fall Term is specially adapted to the wants of teachers wishing to review, preparatory to opening winter schools.

The Courses of Study have been arranged to meet the demands for an education that will be of utility in practical life, and at a cost so low that all can avail themselves of the opportunity.

Brethren are specially invited to consider the claims and advantages of Ashland College, when choosing a place to send their children to school. Here the proper religious influences will be placed around them, and they will be expected to attend the regular religious services, conducted by Brethren, at the College Chapel, unless excused by their parents; and then, we should all patronize our own institution.

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum, or phosphates, or other injurious substances.

E. G. LOVE, Ph.D.

It is a scientific fact that the Royal Baking Powder is absolutely pure. I will go still further and state that, because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportion of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

HENRY A. MOTT, Ph.D.

I have examined packages of Royal Baking Powder, purchased by myself in the open market, and have found it entirely free from adulteration and injurious substances of all kinds, skillfully compounded and composed of the purest materials.

WALTER S. HAINES, M. D.

The Royal Baking Powder is composed of pure and wholesome materials in correct proportion. It contains no injurious substance. The purity of the cream of tartar employed in this powder is worthy of special mention, since it does not contain the tartrate of lime usually present in baking powders in which cream of tartar of inferior quality is used.

H. D. GARRISON, M. D.

Prof. Materia Medica, College of Pharmacy, Chicago.

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

NOTE.—The above DIAGRAM illustrates the comparative worth of various Baking Powders as shown by the chemical analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, besides affording the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

*While the Diagram shows some of the Alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

THE EVANGELIST HYMN BOOK.

The Evangelist Hymn Book is the title of a little work compiled by Elder H. R. Hollinger, for use in revivals by our evangelists. The compiler says in his Preface:

"This little book is intended to be used by traveling ministers, and in out-of-the-way places, where the congregations are not supplied with regular church hymn books. Ministers can carry a supply with them, and have them distributed to all who wish to use them; at the close of the service announce that the books are for sale at five cents each; that those who wish to keep one will drop that amount into the collection basket, and those who do not wish to purchase them will drop the books into that receptacle. When the series of meetings closes the worn books can be taken to the next place, and so on until they are worn out. In this way it is hoped that the song service will be more intelligent and devoted, because all may have books, and it is believed that it may be made self-sustaining financially."

It is now in press and will be out soon. It is sold at five cents per copy, single, fifty cents per dozen, and four cents each in lots of twenty-five copies or more.
